Subject: anti-trust ruling

To Whom It May Concern,

Please note my disappointment in the ruling decision in regard to the Govt. case against Microsoft. As a worker in the technology field, I have seen many instances of Microsofts monopolistic practices. Enough so that I fear them, and feel constrained in my consumer choices. Please reconsider your decision, and prosecute this case to its full extent. Capitulation has never worked, what makes you think it will work now?

Sincerely,
Sean Flynn
